Benefits

Nourisil™ MD Silicone Scar Gel

5 × Silicone Intensity

Nourisil™ MD contains a unique blend of 5 silicones which are known as the gold standard for the management and treatment of scars.

For Sensitive Skin

Nourisil™ MD is fragrance and preservative free and is suitable for use on all skin types, including sensitive skin and on children.

Quick-drying

Nourisil™ MD has an elegant silky feel and dries in 60 seconds for an average-size scar.

Airless Dispenser

Nourisil™ MD comes in a convenient, ready-to-use 30 g airless dispenser. The self-sealing valve stops air from coming in and prevents the product drying out. Nourisil™ MD has a shelf-life of 36 months when left unopened and 12 months after opening.

Vitamin E

Nourisil™ MD contains Vitamin E which is an antioxidant. Studies have shown that, when added to silicone, Vitamin E improved the effectiveness of the treatment of scars.

Medical Device

Nourisil™ MD is a non-invasive Class I medical device based on the European Directive 93/42/EEC, Annex IX Classification Criteria.
