SlimCarb®

Triple enzyme block to combat obesity

How does it work

SlimCarb® assists in the treatment of obesity by inhibiting salivary, pancreatic and intestinal a-glycosidase enzyme activity, thereby promoting a delayed absorption of carbohydrates and glucose. In addition, **SlimCarb®** has aninhibitory action on pancreatic lipase - an enzyme responsible for digesting fat.

SlimCarb® Benefits

- Inhibits fat digestion
- Delays glucose and carbohydrate absorption
- Reduces Body Mass Index
- Reduces glucose levels
- Reduces glycated haemoglobin levels

Reduces carbohydrate, glucose and fat absorption

SlimCarb® blocks the activity of salvatory & intestinal enzymes, thereby inhibiting the absorption of carbohydrates and glucose. This anti-nutrient effect of the phytoactive on a-amylase and a-glycosidase assists in the management of obesity.

SlimCarb® similarly inhibits pancreatic lipase, an enzyme responsible for breaking down 50 - 70% of the total fats we ingest. The result is a direct prevention of weight gain.

Studies

Placebo-controlled, cross over clinical trial with inversion of treatments in the same group. Twenty individuals were evaluated (men and women - mean age 58 years) and type 2 diabetes patients, with elevated fasting blood glucose, but without the use of conventional hypoglycemic agents.

(Kajimoto OKS et al. 2015)

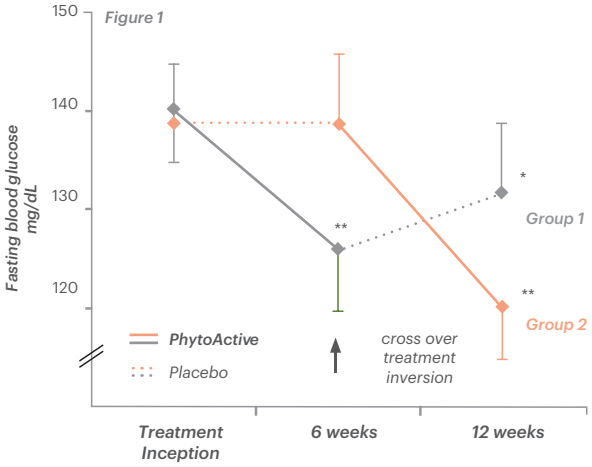
The individuals were divided into two groups

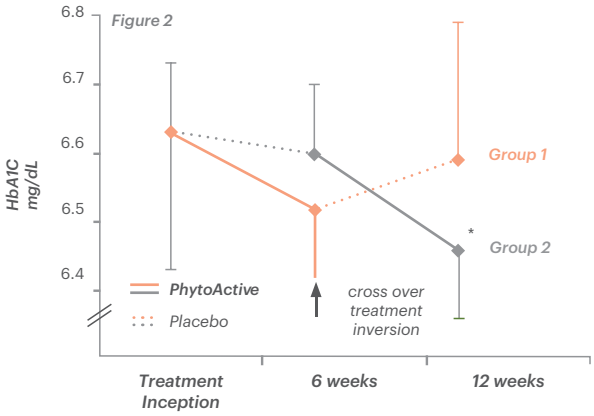
Group 1	Group 2
PhytoActive treatment for 6 weeks followed by 6 weeks of treatment with a placebo.	Placebo treatment for 6 weeks followerd by 6 weeks of treatment with the PhytoActive.

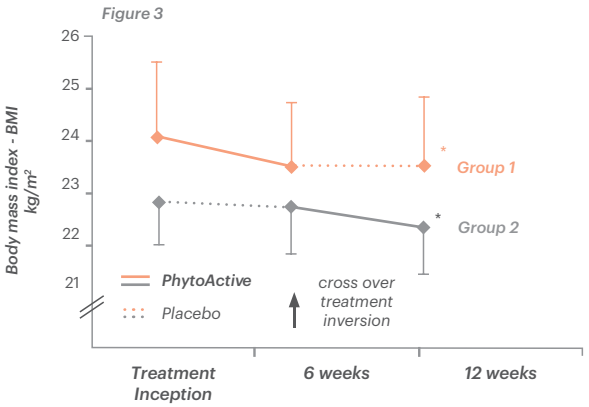
The results indicate that the PhytoActive provided a significant reduction in fasting blood glucose Figure 1, Glycated Haemoglobin HbA1C Figure 2, and Body Mass Index Figure 3.

SlimCarb®

Triple enzyme block to combat obesity







Double Standardisation
20% Triterpenoid Saponins
1% Mangiferin

Weight management

Dosage/Directions	Take one (1) **SlimCarb®** vegicapsule (200mg) twice daily before main meals
Ingredients	Salacia reticulata Extract 200mg, Magnesium Stearate, VegiCapsule
Type	60 Vegicaps
Indications	Regulates Appetite, Inhibits Carbohydrate Digestion, Reduces BMI, Reduces Glucose and Glycated Haemoglobin levels
